## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
2. This application is in condition for allowance except for the following formal matters:

### ***Drawings***

3. Figure 28 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

4. Claims 1 and are objected to because of the following informalities:  
  
Claim 1, lines 2-8, "name", should change to --names--.  
  
Claim 12, lines 5-6, "name" should change to --names--.  
  
Appropriate correction is required.

### ***Allowable Subject Matter***

5. Claims 7, 10, 11, 17-22, and 26-27 are allowed.
6. Claims 1, 2, 6, 12-16, and 23-35 would be allowable if rewritten or amended to overcome the objection of claims 1 and 12, set forth in this Office action.

Art Unit: 2876

7. The following is a statement of reasons for the indication of allowable subject matter: although the prior art of record teaches anonymous voting systems which include voting terminals, voting servers, encryption devices, etc., the prior art of record fails to disclose or fairly suggests all the method and/or functional steps, including receiving a combination of candidate names and encrypted candidate names to re-encrypt to create encrypted voting data, a voting server for creating a list of effecting encrypted voting data from the encrypted data, a decrypting server for creating a plaintext candidate names from the effective encrypted voting data, etc. These limitations in conjunction in conjunction with other limitations in the claims were not shown by the prior art of record.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

### ***Conclusion***

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Patent No.: 6,892,944; 7,237,717; 7,306,148; 7,395,964.
